

ANSAR MEMON | Frontend Engineer

+971 52 913 9295 | amourycodes.com | ansarkmemon@gmail.com | Dubai, UAE

ABOUT ME

I am a pragmatic Frontend Engineer with a deep interest in architecture and design patterns that help build scalable applications. I am known for my enthusiasm to learn and apply the latest tech stack where it makes sense. Apart from coding, I enjoy collaborating with other developers, coming up with solutions, and in general dabbling with the full stack and container ecosystem.

On a regular basis, I mainly work with ReactJS, AngularJS, NodeJS, Redux, Typescript, Docker and Kubernetes.

TECHNICAL SKILLS

FRONTEND TECHNOLOGIES

html5 css3 javascript (ES6)
webpack react redux graphql
sass typescript xstate nextJS

DESIGN TOOLS

illustrator photoshop
invision sketch figma

OPS TOOLS

git docker shell kubernetes
firebase

BACKEND TECHNOLOGIES

nodeJS java php goLang
express spring boot

DATABASE TECHNOLOGIES

mySql mongoDB

NON COMPUTER LANGUAGES

ENGLISH ● ● ● ● ● (Fluent)

— WORK EXPERIENCE

FRONTEND ENGINEER

Namshi.com

2018 - Present

As a part of the Namshi's frontend team, some of the things I work on -

- Improving the website performance and building new features to enhance the User Experience, thus helping the company increase its conversion rate.
- Developing and maintaining internal applications used by different teams and number of stakeholders.
- Maintaining and resolving the bugs of the legacy code used by older applications.
- Working with the backend and the Product Management team to come up with the new solutions to any technical challenges.
- Mentoring the juniors and helping them learn the stack as quickly as possible.

Tech summary -

Typescript | React | Redux | Javascript | AngularJS | NodeJS | XState

UI / UX DEVELOPER

The Raizuli
Design Services

2013 - 2018

- Working with clients to understand their needs and business challenges and to come up with creative solution.
- Using my design skills to develop highly intuitive and modern User Interfaces while following best User Experience practices.
- Writing clean, modular and scalable code to develop the website's frontend and backend services or integrating with commonly use CMS technologies.
- Keeping up-to-date about the new technologies & frameworks and advising the clients on the best technology to consider for solving their problems.

Tech summary -

PHP | WordPress | Woocommerce | Javascript | JQuery | React | Shopify

TECHNICAL MANAGER - MEDICAL DIVISION

BDH Middle East

2012 - 2013

- Conducting product demonstrations / presentations to convince the end user of the device benefits for their organizations and patients.
- Identifying the market needs and finding the right products to fulfill those needs.
- Maintaining the database of competitors, their products and their pricing strategies.
- Providing clinical training to the end users and ensuring that they are confident in using the device to treat patients.

PRODUCT SPECIALIST - MEDICAL DIVISION

Metromed Inc.

2010 - 2012

- Organizing product demonstrations, site visits and follow up and establishing the new brands in the market.
- Developing systems to maintain customer details and notes, as well as systems to generate reports.
- Preparing and coordinating the tender response and validating the tender documentation in collaboration with line manager.
- Generating records and maintaining customer profiles, including keeping track of key decision makers.

ACHIEVEMENTS

These are some of the achievements / highlights that I am proud to share -

@NAMSHI

- Started a team-wide learning initiative i.e. a monthly seminar called "Frontend Learnings". This has helped the team to grow their skills and as a result, achieve cleaner code and adopt best practices.
- Built a dashboard for visualization of "Black November sales" which has received a warm response by the management, and is now being used company-wide to visualize the numbers on a monthly basis.
- Proposed a new feature for the site "Follow Brand", that will help personalize the marketing efforts to the target audience. This feature has now been accepted by the management is currently in development.

EDUCATION

ACADEMIC QUALIFICATIONS

**POST GRADUATE DIPLOMA IN SOFTWARE ENGINEERING
BLOCKCHAIN SPECIALIZATION**

IIIT Bangalore
2018 - 2019

**MASTERS IN BUSINESS ADMINISTRATION (MBA)
FINANCE GRADUATE**

Mahe Manipal, Dubai
2011 - 2013

**BACHELORS IN ENGINEERING (BE)
ELECTRONICS & COMMUNICATIONS**

Birla Institute of Technology, Ranchi
2006 - 2010
